## 1. Introduction and overview

### a. Introduction

We've been in the building and renovations business since January 2001. We have worked alongside developers where we have managed and constructed several developments and renovations in the Pretoria area.

### b. Company History

Franco's Building and Renovation projects was established in January 2013 with our facility based in Pretoria, Gauteng. The company specialises in providing one-stop services for its clients. We provide clients, developers and tenants with the expertise to guide a project through a complex development processes, from its conception to completion.

Franco's Building and Renovation projects specialises in construction, building, renovation and development of vacant land, new houses, extensions and modification of existing facilities as well as maintaining these. We will take care of your building or renovation project with turnkey solutions.

## **2. Vision, Mission & Values**

### **a. Vision Statement**

Franco's Building and Renovation projects intends on becoming a preferred and renowned construction identity to developers, private clients and developing estates alike. Our vision can best be described as **“To be the preferred contractor in the building, construction, and renovating industry, insuring quality projects on time and within budget”**

### **b. Mission Statement**

We intend on achieve our vision by setting high standards in our quality at the most affordable prise possible and by giving our clients the best advice on the project.

To have strategic alliance with well-established companies and key people in the industry.

### **c. Values**

At Franco's Building and Renovation projects we believe in:

- Quality
- Professionalism
- Customer Satisfaction
- Competiveness

## **3. Quality , Time Consumption & Specialty's**

### **a. Quality**

We use the highest quality materials, paints, waterproofing, cement, and etc in all our projects.

### **b. Time Consumption**

We use a skilled work force able to move in quickly, complete the project and leave with minimum disruption and damage to delicate environments.
